Planning for Doomsday: AMERICA’S STRATEGIC POSTURE
The Final Report of the Congressional Commission on the Strategic Posture of the United States

Steven Starr, MPH, MT (ASCP) BB
Congressional Commission recommends:

- Replace all U.S. nuclear delivery systems
- Modernize all U.S. nuclear warheads
- Comprehensively modernize U.S. nuclear command, control, and communications
- Recapitalize the nuclear enterprise infrastructure
- Modify the U.S. strategic nuclear force to address the larger number of targets = Increase the number of nuclear weapons
Congressional Commission recommends:

- Prepare to **upload** some or all of the nation’s hedge – **1938 nuclear warheads**
- Plan to **deploy** the Sentinel ICBM in a **MIRVed configuration** (multiple nuclear warheads)
- **Increase** the planned number of deployed Long-Range Standoff Weapons;
- **Increase** the planned number of B-21 bombers and the tankers
“Urgent Recommendations”:

- **Increase** planned production of Columbia Nuclear Ballistic Missile Submarines and their Trident ballistic missiles;
- Pursue the feasibility of fielding some portion of the **future ICBM force in a road mobile configuration**;
- Initiate planning and preparations for a portion of the **future nuclear bomber fleet to be on continuous alert status**;
What Americans are being told by their government about nuclear war

1. GET INSIDE
   + FAST
   + GET INTO A BUILDING
   + MOVE AWAY FROM WINDOWS

2. STAY INSIDE
   + SHUT DOORS AND WINDOWS
   + GO TO THE MIDDLE OF THE BUILDING
   + GET CLEAN IMMEDIATELY
   + REMOVE CLOTHING AND SHOWER WITH SOAP OR SHAMPOO

3. STAY TUNED
   + FOLLOW MEDIA
   + SIGN UP FOR NOTIFY NYC
   + OFFICIALS WILL SEND WIRELESS EMERGENCY ALERTS (WEAs)
   + STAY PUT

And don’t go outside until officials say it’s safe.
Using Computer Simulation to Plan

The Nuke-Resistant City

Los Alamos National Laboratory
“The World’s Greatest Science Protecting America”
Atomic bomb  
10 sq km firestorm

Thermonuclear bomb  
260 sq km firestorm
Vaporized by the fireball, a person left only a shadow on the sidewalk.
Nuclear Firestorm: One immense fire

- Nuclear fireball sets fires over tens or hundreds of square miles
- Within tens of minutes, all the fires merge and form one gigantic fire
- Air temperatures in the fire zone are 400 to 500 degrees F
- No living thing survives in the fire zone
100 atomic bombs detonated in large cities of India and Pakistan – 5 million tons of soot
Sunburn in 7 minutes
Global ozone hole after regional nuclear war

Earth surrounded by 5 million tons of smoke:
Cloudless sky at noon, 10% loss of sunlight

Turning a Blind Eye Towards Armageddon — U.S. Leaders Reject Nuclear Winter Studies

By Steven Starr
Global Research, April 21, 2017
FAS.org 9 January 2017

Global Research Editor’s Note

The greatest threat to humanity is nuclear war.

While public opinion is largely misinformed, US “decision-makers” including president Trump are also unaware and misinformed as to the consequences of their actions. Multi-billion dollar bonanza for the Military-Industrial Complex: “Scientific opinion” on contract to Pentagon presents tactical nuclear as “peace-making” bombs.

Global Research will be featuring on a regular basis a number of articles and reports on the dangers of nuclear war focussing on the scientific, policy and military dimensions.

Forward this article.

The objective is to build a cohesive and Worldwide campaign against nuclear weapons.

Michel Chossudovsky, Global Research, April 21, 2017
Smoke surrounds the Earth after US-Russian nuclear war. 150 million tons of soot enter stratosphere.

Smoke layer blocks warming sunlight and creates Ice Age weather on Earth.
Earth Surrounded by Smoke:
Cloudless sky at noon after US-Russian nuclear war
Daily below freezing temperatures for 3 years

Cold weather prevents crops from being grown for ten years
Most humans and land animals starve to death.
A war between the U.S. and Russia could kill more than 5 billion people

Proportion of population that would starve to death
Partial Livestock Case, 150 Tg, 50% livestock feed to human consumption, no trade

Xia et al., Nature Food 2022
Recommendations:

- Reverse the Commission recommendations – less not more nuclear weapons
- Stop the flow of money for weapons and war and spend money to address human needs
- End the Endless wars for hegemony
- Use the power of our technology to transform the Earth into a paradise
